1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John M. Lazarus on 3/2/2006. In the interview it was noted that the bottom surface of bolt 30 in Hidding was planar which defined an angle of 180 degrees and thereby was an angled surface. It was agreed to amend claim 27 as below to overcome the Hidding reference.

The application has been amended as follows:

In claim 27,

Line 11: "having an angled surface" has been changed to - - having an acutely angled surface - -.
